

STATINTL

Approved For Release

1 June 1962

STATINTL

P. O. Box 1407
Washington 13, D.C.

Attention:

Dear Sir:

I understand that our people in [REDACTED] supplied you with a sample of the screen material as used in our [REDACTED] Contrast screen. We hope that by now you have had a chance to run some tests on this screen and formed some opinions as to its possible application for your requirements.

We moved into our new plant in [REDACTED] last Monday and hope to be ready for lens production within the next few weeks. The screen is an item we could manufacture here as well as a projector if there was sufficient sales potential. Your comments regarding the screen will certainly assist us in determining whether this item should be included in our production plans.

STATINTL

Very truly yours,

JNM:mt
